

## **TO Brownbag Seminar, September 4, 2012**

### **Can 3D models from free, online tools and pocket cameras be used for geological studies?**

Alex Day-Blattner (teacher, Clark Magnet High School, Glendale)

Temoc Rodriguez (senior, Los Angeles Center for Enriched Studies)

Steven Tan (senior, Gabrielino High School, San Gabriel)

This high school group worked over the summer with James Hollingsworth, Sebastien Leprince, Francois Ayoub, and Luca Malatesta, as part of Caltech's Summer Research Connection (SRC) program. Their 1/2 hour presentation will be followed by an open discussion / brainstorming on the potential uses of such tools by geologists.
